Other Skills: Docker, MySQL, Render, Vercel, Netlify, RestAPI, Algolia Search, Kaggle

Projects

AnimeFlex [Link]   **Mar 2024 - Present**
ReactJS, Tailwind, JavaScript, Node, Socket.IO, MongoDB, Redux

- AnimeFlix is an upcoming anime streaming platform that will be available for free. It's currently under development and will soon be offering additional features such as community posts and watch parties.
- Stream over 5000 anime series and movies for free with our user-friendly interface and easy navigation and search options.
- Utilizes ReactJS, Tailwind, and JavaScript for a smooth and responsive user experience. Constantly updating the library with new and popular anime titles.

MedBuddy [Link]   **Mar 2024 - April 2024**
ReactJS, Tailwind, Algolia Search, Kaggle

- Comprehensive Alternatives: MedBuddy provides users access to around 250,000 alternative medicines, aiding in informed healthcare decisions by presenting substitutes for prescribed medications.
- Symptom-based Recommendations: Utilizing advanced algorithms, MedBuddy analyzes symptoms to recommend suitable medicines, empowering users with personalized treatment options.

ImageKeeper [GitHub Link]   **Mar 2024 - April 2024**
JavaScript

- ImageKeeper serve as a Chrome extension designed for temporarily saving web images.
- Quick Access: Users can save images with a simple right-click and select "Keep Image," ensuring quick and effortless storage.
- Clipboard and Download Options: ImageKeeper allows users to copy saved images to the clipboard or download them for offline use.
- Temporary Storage: ImageKeeper enables users to temporarily store images, providing a convenient solution for saving images for short-term reference or use.

E-Commerce Website [Link]   **Sept 2023 - Oct 2023**
HTML, CSS, JavaScript

- Wishlist Functionality Implementation: Developed and implemented a user-friendly wishlist system, allowing users to create and manage personalized shopping preferences.
- Smooth Checkout Process: Orchestrated a secure and seamless step-by-step Razorpay payment system, ensuring hassle-free transactions for improved user satisfaction.
- Skeleton Loader Integration: Successfully integrated visual placeholders to enhance the user experience by reducing perceived loading times during shopping.

Work Experience

Aurora Fest Web Team   **Oct 2023 - Mar 2024**
ReactJS, HTML, CSS, JavaScript

- Aurora is the largest cultural fest in central India organized by ABV-IIITM Gwalior.
- Crafted comprehensive FAQs, enhancing user experience by addressing common queries for cultural fest attendees.
- Developed an engaging sponsors page, showcasing partnerships and contributing to festival success.
